TECHNICAL SKILLS

Programming languages

- JavaScript

Libraries/Frameworks

- React.js
- Node.js
- HTML5
- CSS3
- tailwind

Database

- MongoDB
- PostgreSQL

Tools

- VS code
- Postman
- Thunder client
- Prisma
- Github

PROFILE

Dynamic Frontend Developer with a strong foundation in JavaScript, HTML, CSS, and frameworks like React and Tailwind CSS. Passionate about crafting responsive, user-friendly web applications with a focus on functionality and design. Leveraging a background in Electronic and Computer Systems Engineering and experience as a Project Leader in AGV system installation, I excel in delivering technical solutions and bridging the gap between hardware and software. Enthusiastic about collaborating with cross-functional teams to create innovative and impactful digital experiences.

EDUCATION

Silpakorn University

Bachelor's Degree in Electronic and Computer Systems Engineering
2013 - 2016

I completed a rigorous four-year program specializing in electronic and computer systems engineering. The curriculum encompassed a wide range of subjects, including digital and analog electronics, microprocessors, embedded systems, computer architecture, and network protocols. Through hands-on projects and laboratory work, I gained practical experience in designing, analyzing, and troubleshooting complex electronic circuits and computer systems. Additionally, I developed strong programming skills in languages such as C, enabling me to develop software applications for various electronic devices.
